

# PRESS RELEASE

FOR IMMEDIATE RELEASE – Monday, 5 October 15

## Energy Users Power Towards 2020

The Hon Anthony Roberts MP, NSW Minister for Industry, Resources and Energy, will join energy users from across Australia tomorrow, delivering the opening keynote address at the Energy Users Association of Australia national conference- Powering Towards 2020. Delivering keynote addresses on Day Two of proceedings is the Hon Greg Hunt MP, Federal Minister for the Environment, and the Hon Mark Butler MP, Shadow Minister for Environment, Climate Change and Water.

‘The Annual EUAA National Conference is an important event that brings together those with shared interests to focus on a common goal- that of a sustainable and efficient energy supply for Australian business,’ said Brian Green, Chair of the Energy Users Association of Australia. ‘The energy sector is dynamic and diverse, and it is through participation in forums like this that energy users are equipped to gain a better understanding of the key issues facing the industry.’

**What:** EUAA National Conference at Amora Hotel Jamison, Sydney, 6 and 7 October.

**Who:** Energy Users Association of Australia- the peak industry body for Australia’s energy users including manufacturers, retailers and resource-based industries.

**Theme:** Powering Towards 2020
