

INDUSTRY TOUR: CROWN ELECTRIFICATION PROJECT TOUR - MAY 26 & MAY 28

This is a walking tour, May 26 (2 tours) + May 28, 15 Person max each tour

Step behind the scenes at Crown Melbourne and explore one of Australia’s most complex, large-scale energy transformations in action.

This exclusive tour offers a rare opportunity to see how a 24/7 entertainment precinct is evolving its energy systems in a progressive shift toward electrification. You’ll gain firsthand insight into how Crown is balancing reliability, performance, and sustainability in a high-demand environment, and what it takes to reduce emissions at scale.

With a strong focus on real-world application, this tour will unpack the challenges, decisions, and innovations shaping the project—making it highly relevant for anyone navigating energy strategy, infrastructure, or decarbonisation pathways.

Please ensure you wear closed toe shoes on the tour. You may bring a small bag but backpacks are not permitted. We will pre-register you prior to the tour but photo ID will be required on the day also. Photos will not be permitted.

Register here. Tours will run - May 26 2pm & 3:30pm. May 28 2pm only. Please indicate which tour and time you wish to go to and please provide your DOB in this email.

Note the hosting company retains the right to approve attendee list
